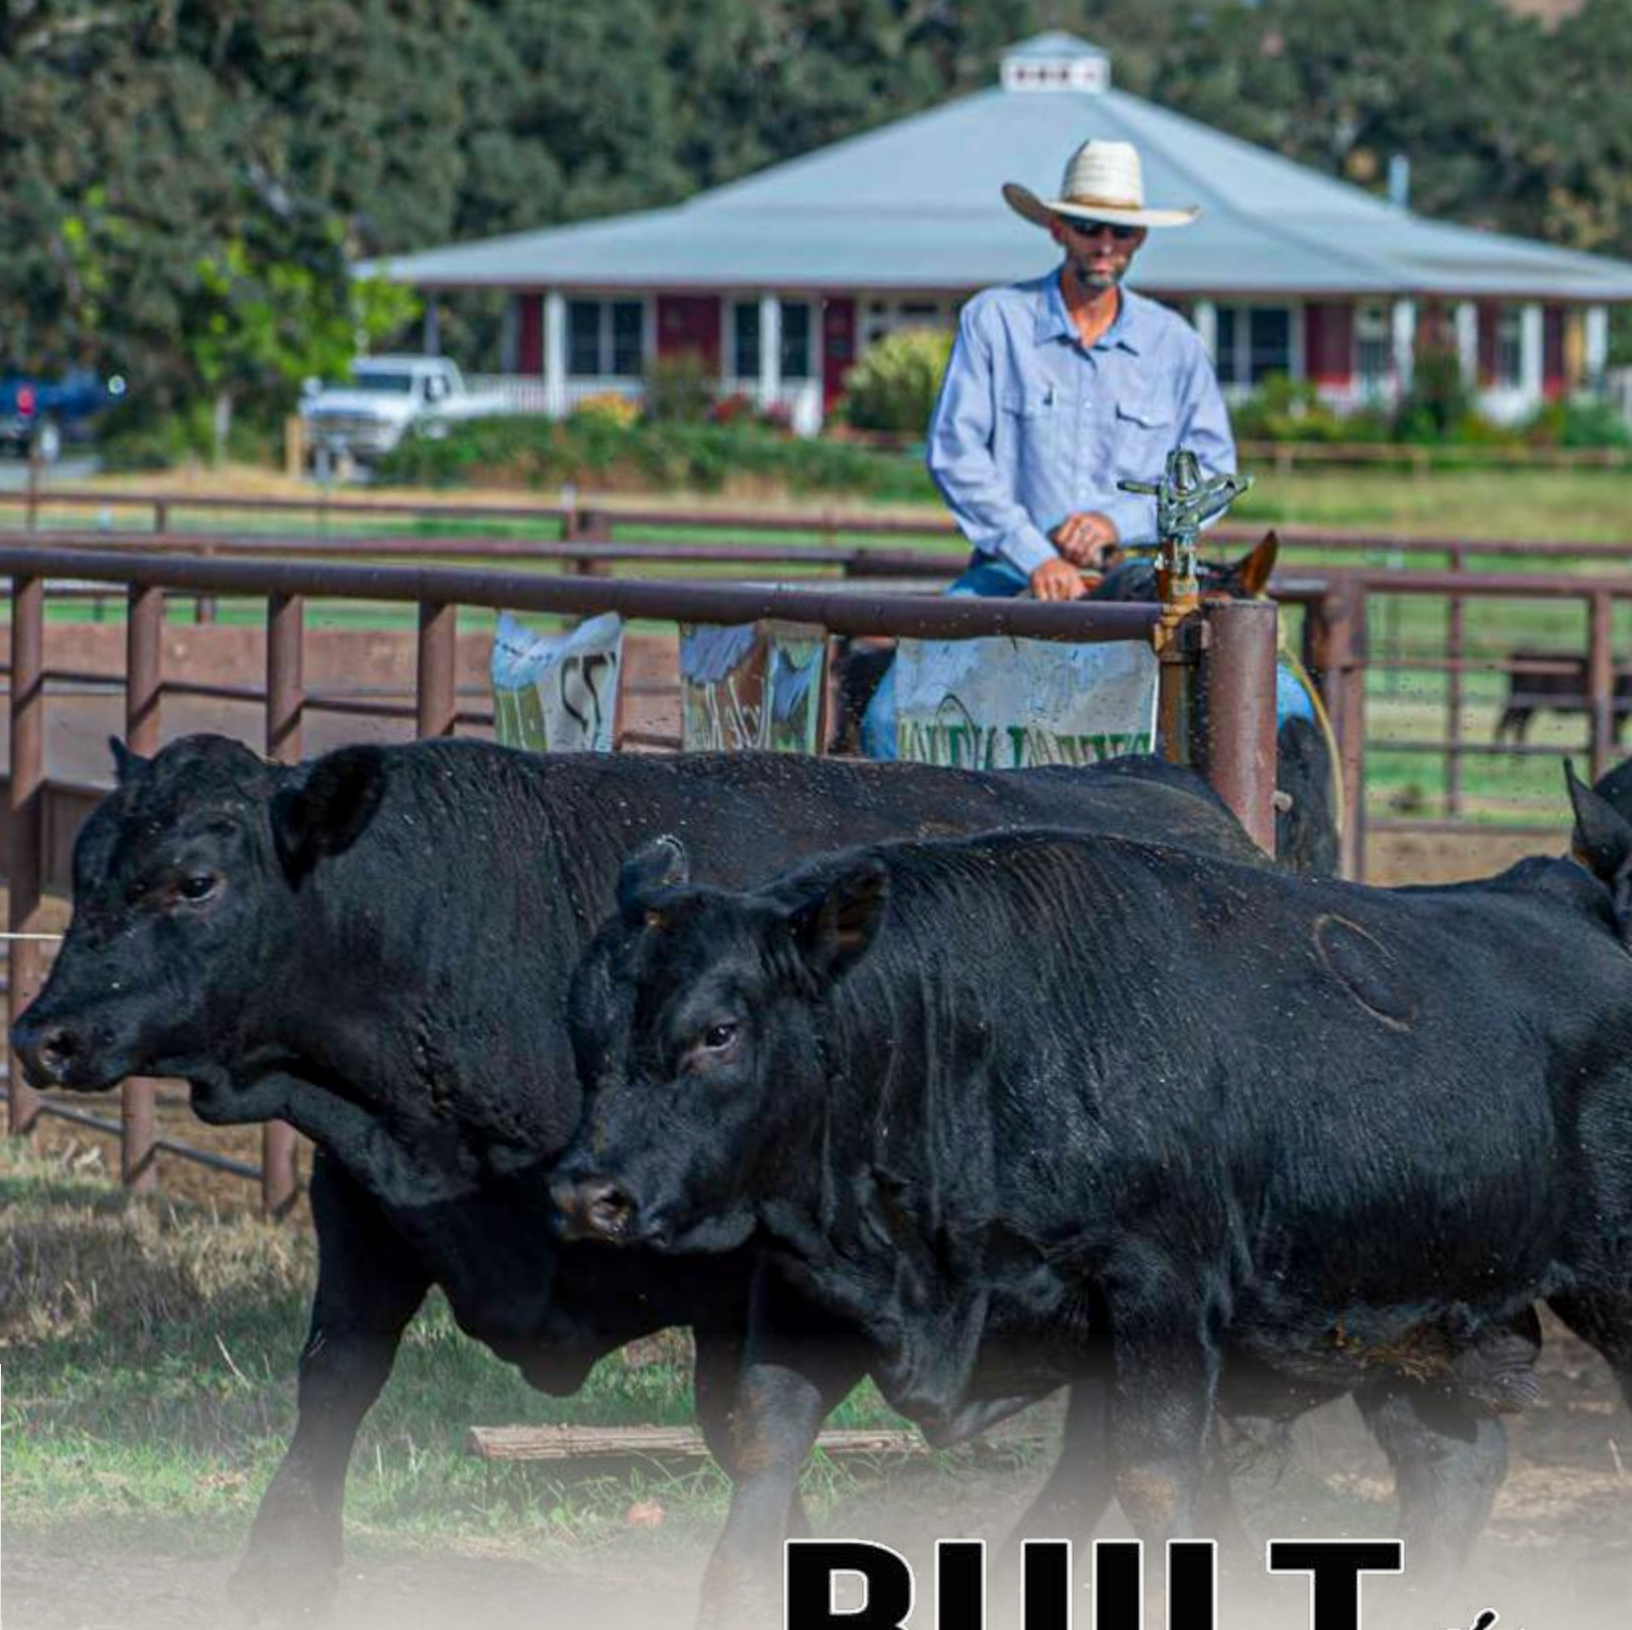
IONE, CA
20th Annual
BEEF SOLUTIONS BULL SALE
SEPTEMBER 24, 2026 • 1 P.M.
AT CIRCLE RANCH · IONE, CA
200 SIMANGUS & ANGUS BULLS



BUILT *to* LAST

Markets change. Weather changes. The cattle industry changes.

THE NEED FOR DEPENDABLE, PROFITABLE CATTLE AND PEOPLE WHO STAND BEHIND THEM *WILL NEVER CHANGE.*

Great cattle programs aren't built in a single generation. They're built through disciplined selection, proven genetics, thoughtful development and a commitment to doing what's right—year after year.

Every decision we make is centered on longevity. From the sires we select and the females we retain to the way our bulls are developed and the technology we embrace, our goal remains the same: helping customers build cow herds that remain productive, profitable and competitive in an ever-changing marketplace.

For commercial producers, lasting success often begins with the power of heterosis. By combining the maternal strength and consistency of Angus with the added performance, longevity and efficiency of SimAngus genetics, we help producers capture the advantages of hybrid vigor while building a cow herd designed to perform for generations.

Because lasting success isn't accidental. ***It's built:*** Built on proven genetics. Built with purpose. Built on Solutions.
BUILT FOR PROFITABILITY

BEEF SOLUTIONS
BULL & FEMALE SALE
Fall Round Up
IONE, CA

Joe, Abbee, Jill & Tim

Fellow producers and friends,

We are thankful for your support and humbled by your dedication to our programs. You are what drives us to continue to provide better cattle; cattle that are consistent, productive, relevant and developed responsibly with the intention of quality that lasts.

You will notice lots of bulls sired by our own bulls this year. This wasn't by accident or a leap of faith; we have made the quickest progress toward our goals by employing this strategy. ***We intentionally use sires raised by mothers who have excelled here; this has produced quality and consistency in type and performance.*** Every year, we travel the country looking for outcross sires to bring in different lines for mating flexibility for you. These lines have been researched, and we are confident that when blended with your cattle you will see the outcrossing you are hoping for and the consistency you have come to expect from our programs.

We are living an incredible moment in history in the beef business, and we are thankful to see you compensated for your hard work. We have watched friends and family market all classes of cattle at historic prices and for that we are grateful. All signs still point toward a shortage of cattle domestically and our producers do the best job of raising the right kind. We have seen a shift and younger generations are optimistic and believe that this is a vocation worthy of profit.

Thank you for supporting our program and for choosing us as your seedstock supplier and thank you for staying committed to this way of life. ***We hope that you can join us September 24th to celebrate our 20th Anniversary sale.***

20TH Annual BEEF SOLUTIONS BULL SALE

At Circle Ranch, Ione, Ca

SEPTEMBER 24, 2026 • 1 P.M.

BID IN CONFIDENCE · ALL SIGHT UNSEEN PURCHASES GUARANTEED.

SIMANGUS™ BULLS: LOTS 1-131
ANGUS BULLS: LOTS 132-203

Win a FREE Bull!

See page 43 for details!

Hotel Accommodations:

Comfort Inn, Galt, CA.....(209) 744-7800

Holiday Inn Express, Jackson, CA.....(209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on inside front cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Inspections: Cattle will be available for inspection begining Tuesday, Sept. 26 through the conclusion of the sale.

Bid and Buy Online: This sale will be broadcast on Western Video Market in partnership with CCI.Live Internet service. For details about how to participate, turn to page 52. The sale will also be broadcast through Western Video Market.

Bill Zimmerman, *American Simmental Association*.....(612) 875-9509

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please see Joe for details.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take $100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments and food are available on Wednesday afternoon and all day on sale day.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimer: The Beef Solutions, Bruin and Circle Ranch assume no liability for accidents, injury or Covid-19 exposure that may occur. Attend the sale at your own risk.

Photo Credits: Special thanks to Riley Der Manuelian for bull photos; Savannah Molina for bull and landscape photos; Rick Raef at Working Ranch Photography, Patricia Fischer, Kati Roberti. Angus Media and Grant Company for landscape photos.

SCHEDULE OF EVENTS

WEDNESDAY SEPTEMBER 23RD:
3:00 PM: Bulls available for viewing

Evening: Pre-sale Steak Sandwich Social at the Ranch

THURSDAY SEPTEMBER 24TH:
10:00 AM: Bulls on display, refreshments and snacks hosted
Noon: Prime-Rib lunch (Hosted by Native Sons of the Golden West)

1:00 PM: 20th Annual Beef Solutions Bull Sale

WE'VE ALWAYS BEEN ABOUT *Solutions!*

We have learned that solutions and resources that aid you in making sound purchasing decisions have changed over time. On the SimAngus side, we have invested heavily in innovative genomic solutions and designations through RightMate. In the Angus Division, we invest in Genomically Enhanced EPDs and comprehensive footnotes. We encourage you to contact either producer for added insight into your purchases.

Improved Buying Confidence with Greater Genomic ASSURANCE

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

Watch for these badges in the Circle Ranch Lots!

MARTY ROPP 406-581-7835

RightMate powered by TOP GENOMICS

Circle Ranch

SimAngus

From left: Austin, Cameron, Tim (Faye), Jill, Taylor (Jack), Savannah

For generations, environmental adaptability has been and continues to be one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. **That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed.** We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges, however, you will find genetics here that can **produce power house performance** for higher resource situations as well as some lines created **to minimize maintenance requirements for low-input regions**.

The best things in *life* aren't ***built overnight***.

They're ***BUILT DAY BY DAY***,

together!

Through practical genetics, disciplined development and data-driven selection, we raise SimAngus cattle with one goal in mind: helping commercial producers build efficient, profitable cow herds that perform today and remain productive for years to come.

The power of SimAngus is in the combination. Angus brings proven maternal ability, market acceptance and consistency, while Simmental adds growth, performance, fertility and longevity. Together, they deliver the benefits of maternal heterosis—helping cows breed back, stay productive and raise more pounds of calf over their lifetime.

For the commercial producer, maternal heterosis isn't just a genetic concept. It's a practical tool for building a more efficient cow herd. Crossbred females can bring added fertility, longevity and productivity to the pasture, helping turn genetic advantage into real-world profitability.

We believe cattle should work for the rancher—not the other way around. That's why our SimAngus cattle are selected and developed with the commercial producer in mind: functional females, dependable performance and genetics designed to hold up for the long haul.

Built for maternal advantage. Built for efficiency. Built for longevity. Built for solutions.

MATERNAL HETEROSIS

Don't ranch without it!

DEVELOPED AT HOME **BUILT** *to* **LAST**

Circle Ranch ▪ Ione, California

Growing our bulls at home is the best management change we've done because we believe **how a bull is developed matters to how he lasts**. Our bulls are fed in five-acre, oak-filled lots with plenty of room to move, stay loose-jointed and athletic, and be ready to go to work at turnout.

You won't find eye-popping yearling weights here. Instead, you'll find bulls **developed slowly and intentionally** to hold up, maintain condition through the breeding season and stay productive for years to come.

We're not feeding for a number – we're developing bulls that are Built to Last.

CIRCLE Sweet Blend L290

The CTB × Sweet Sixteen mating was designed to create outcross purebred Simmentals that could be used to produce higher-percentage SimAngus cattle while retaining the practical, functional type we value. The results have been exactly what we hoped for.

Sweet Sixteen contributes exceptional carcass merit and maternal strength without adding excessive growth, while CTB sons and daughters continue to check every box for phenotype, functionality, and performance. This mating has proven to be highly consistent and marketable, producing SimAngus cattle with the balance needed in today's beef industry. These purebred bulls will work especially well on high-percentage Angus cow herds, allowing producers to move their calf crop toward the half-blood SimAngus level more quickly.

The eight sons from this mating topped the 2024 sale. Standout progeny include Circle DOGE, Circle Liberator, Circle Sweet Blend, Circle Sweet Spot, and Circle WS My Time. These five brothers have been selected for use in our AI and ET program, alongside their flush sister, Circle Sattley L280.

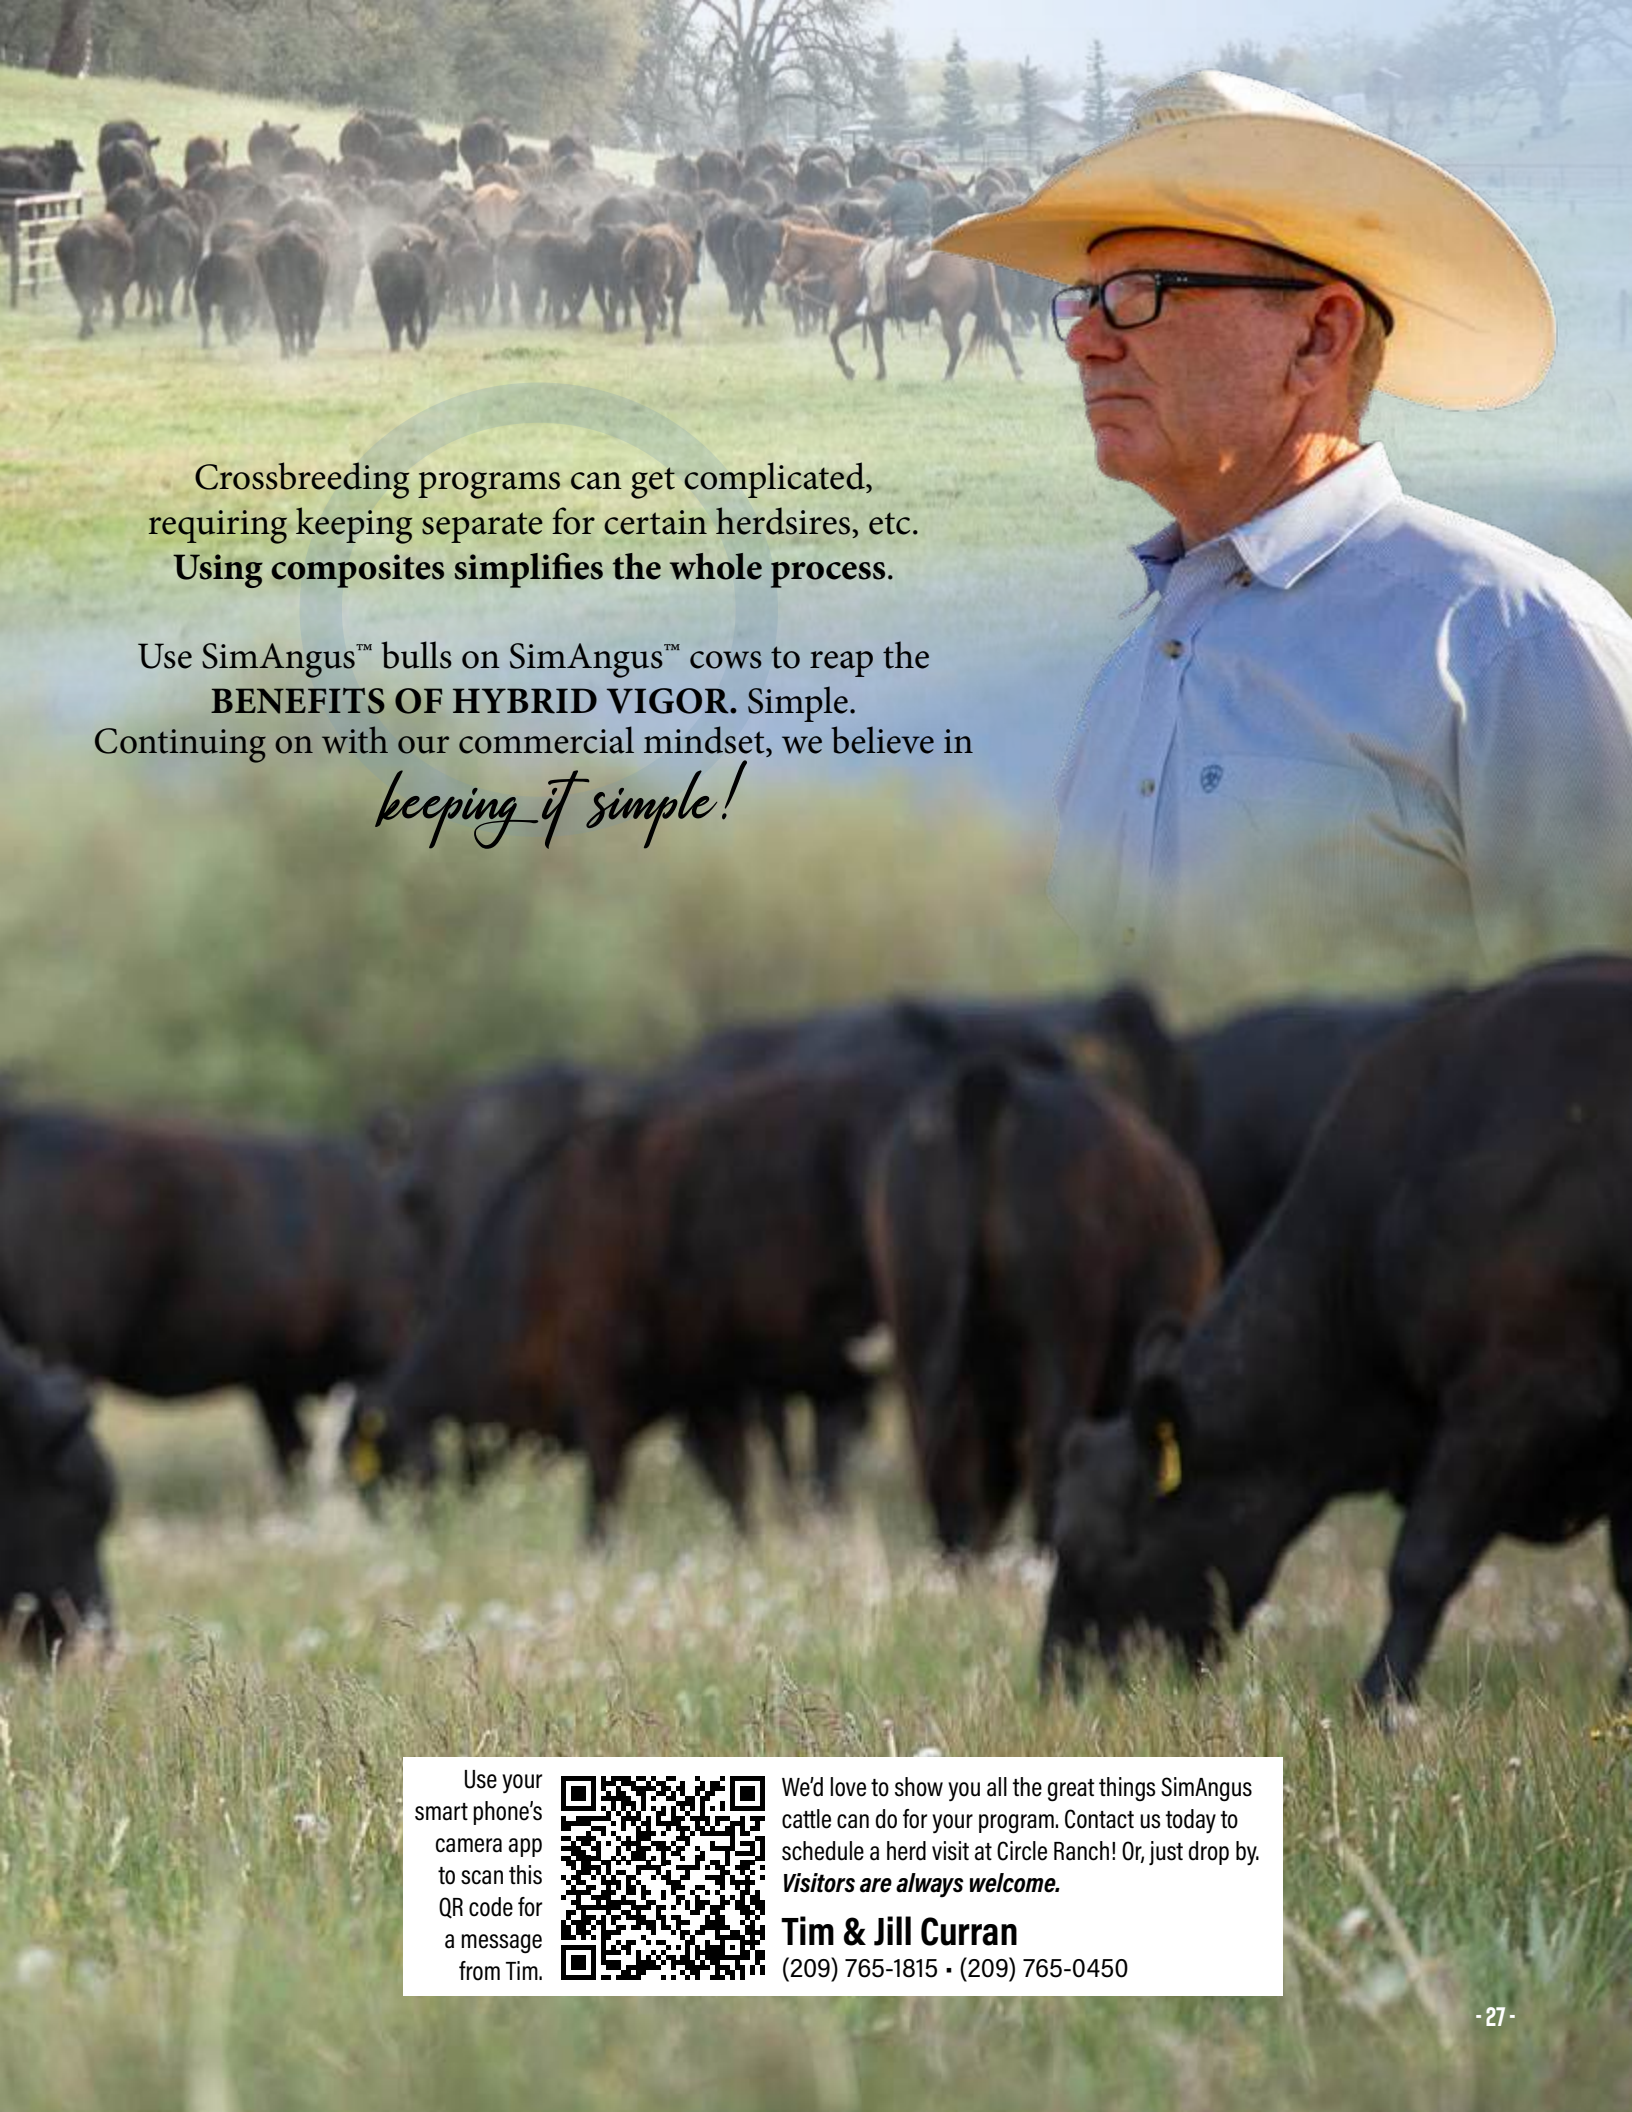
Circle Ranch started in the commercial cow business in 1980. Although we are primarily in the seedstock business today, **we still maintain a commercial mindset:**

COWS SHOULD WORK FOR THEIR OWNERS,
not the other way around.



Crossbreeding programs can get complicated, requiring keeping separate for certain herdsires, etc. **Using composites simplifies the whole process**.

Use SimAngus™ bulls on SimAngus™ cows to reap the **BENEFITS OF HYBRID VIGOR.** Simple. Continuing on with our commercial mindset, we believe in *keeping it simple!*

Use your smart phone's camera app to scan this QR code for a message from Tim.

We'd love to show you all the great things SimAngus cattle can do for your program. Contact us today to schedule a herd visit at Circle Ranch! Or, just drop by. ***Visitors are always welcome.***

RANCHING IN THE *Sierra Valley*

Use your smart phone's camera app to scan this QR code for a message from Tim.

This is our 12th year summering cattle in Sierra Valley. Sierra County, with a population of 3000, is the summer home to over 10,000 mother cows. With an elevation of 5000 feet, it's the perfect climate for fall calving cows and we AI breed everything we send there including our replacement heifers.

The Carson (Sam) and Kailey Collier family are valued cooperators with Circle Ranch, offering bulls as Lots 1-13, 42-50, 66-73 and 113–131. Colliers and Currans are partners on 9524G, B120 and A339.

CCR Ms Rainmaker 9524G

KBHR B120

HRM Ms Top Grade A339

The Colliers also own Shasta View Genetics, a partner of Circle Ranch and Bruin Ranch. Together, our three programs combine proven genetics, technology and custom A.I. services to help our customers build cow herds that are designed to last.

Immediately following the conclusion of the sale, there will be a drawing for a FREE BULL. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is FREE with no cash compensation.

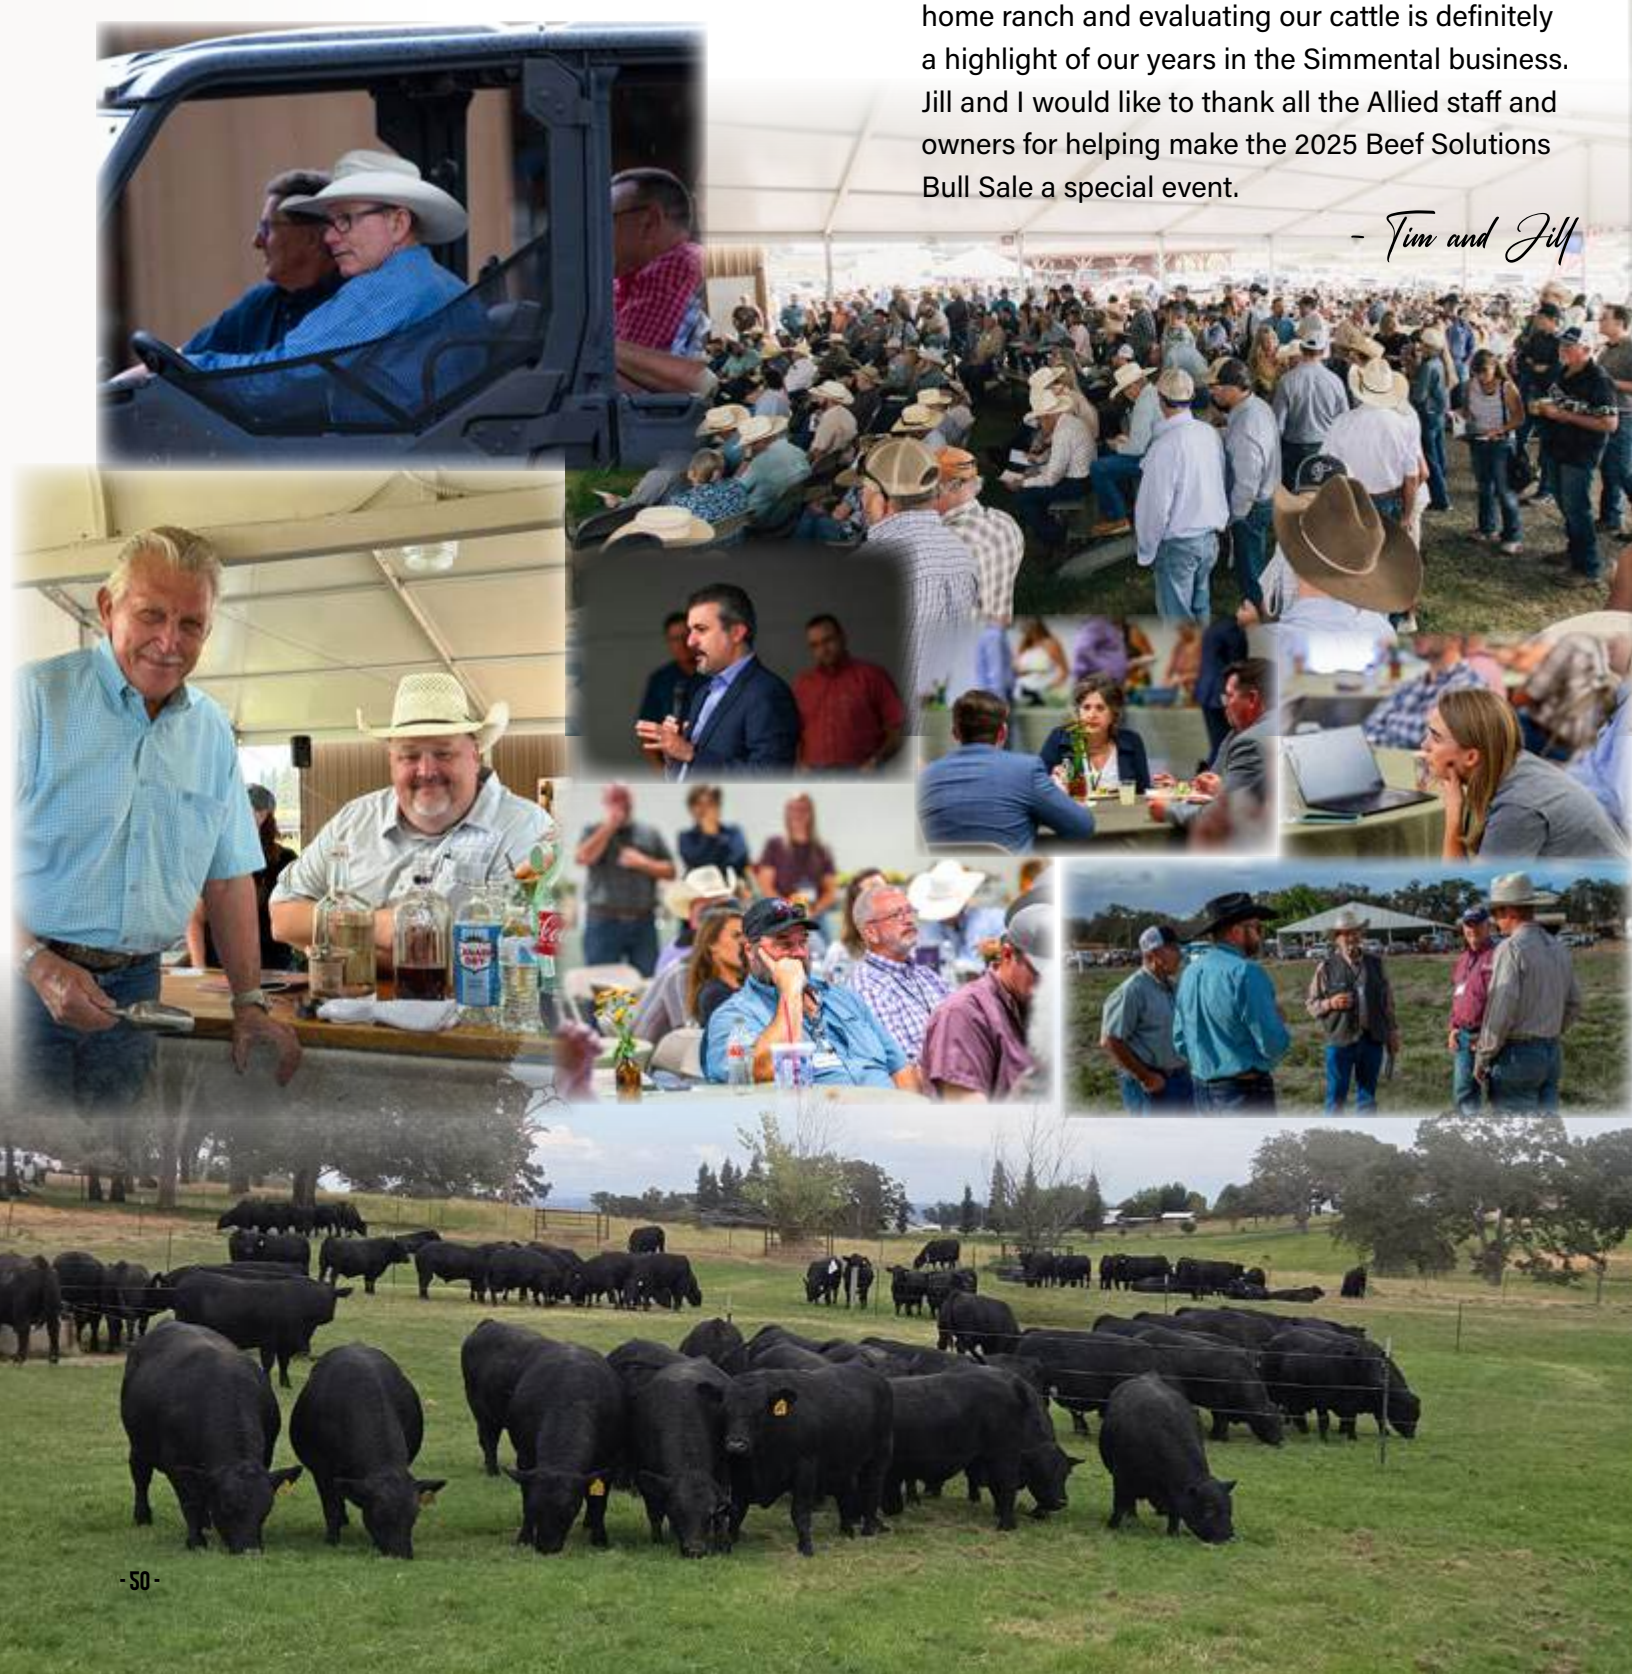
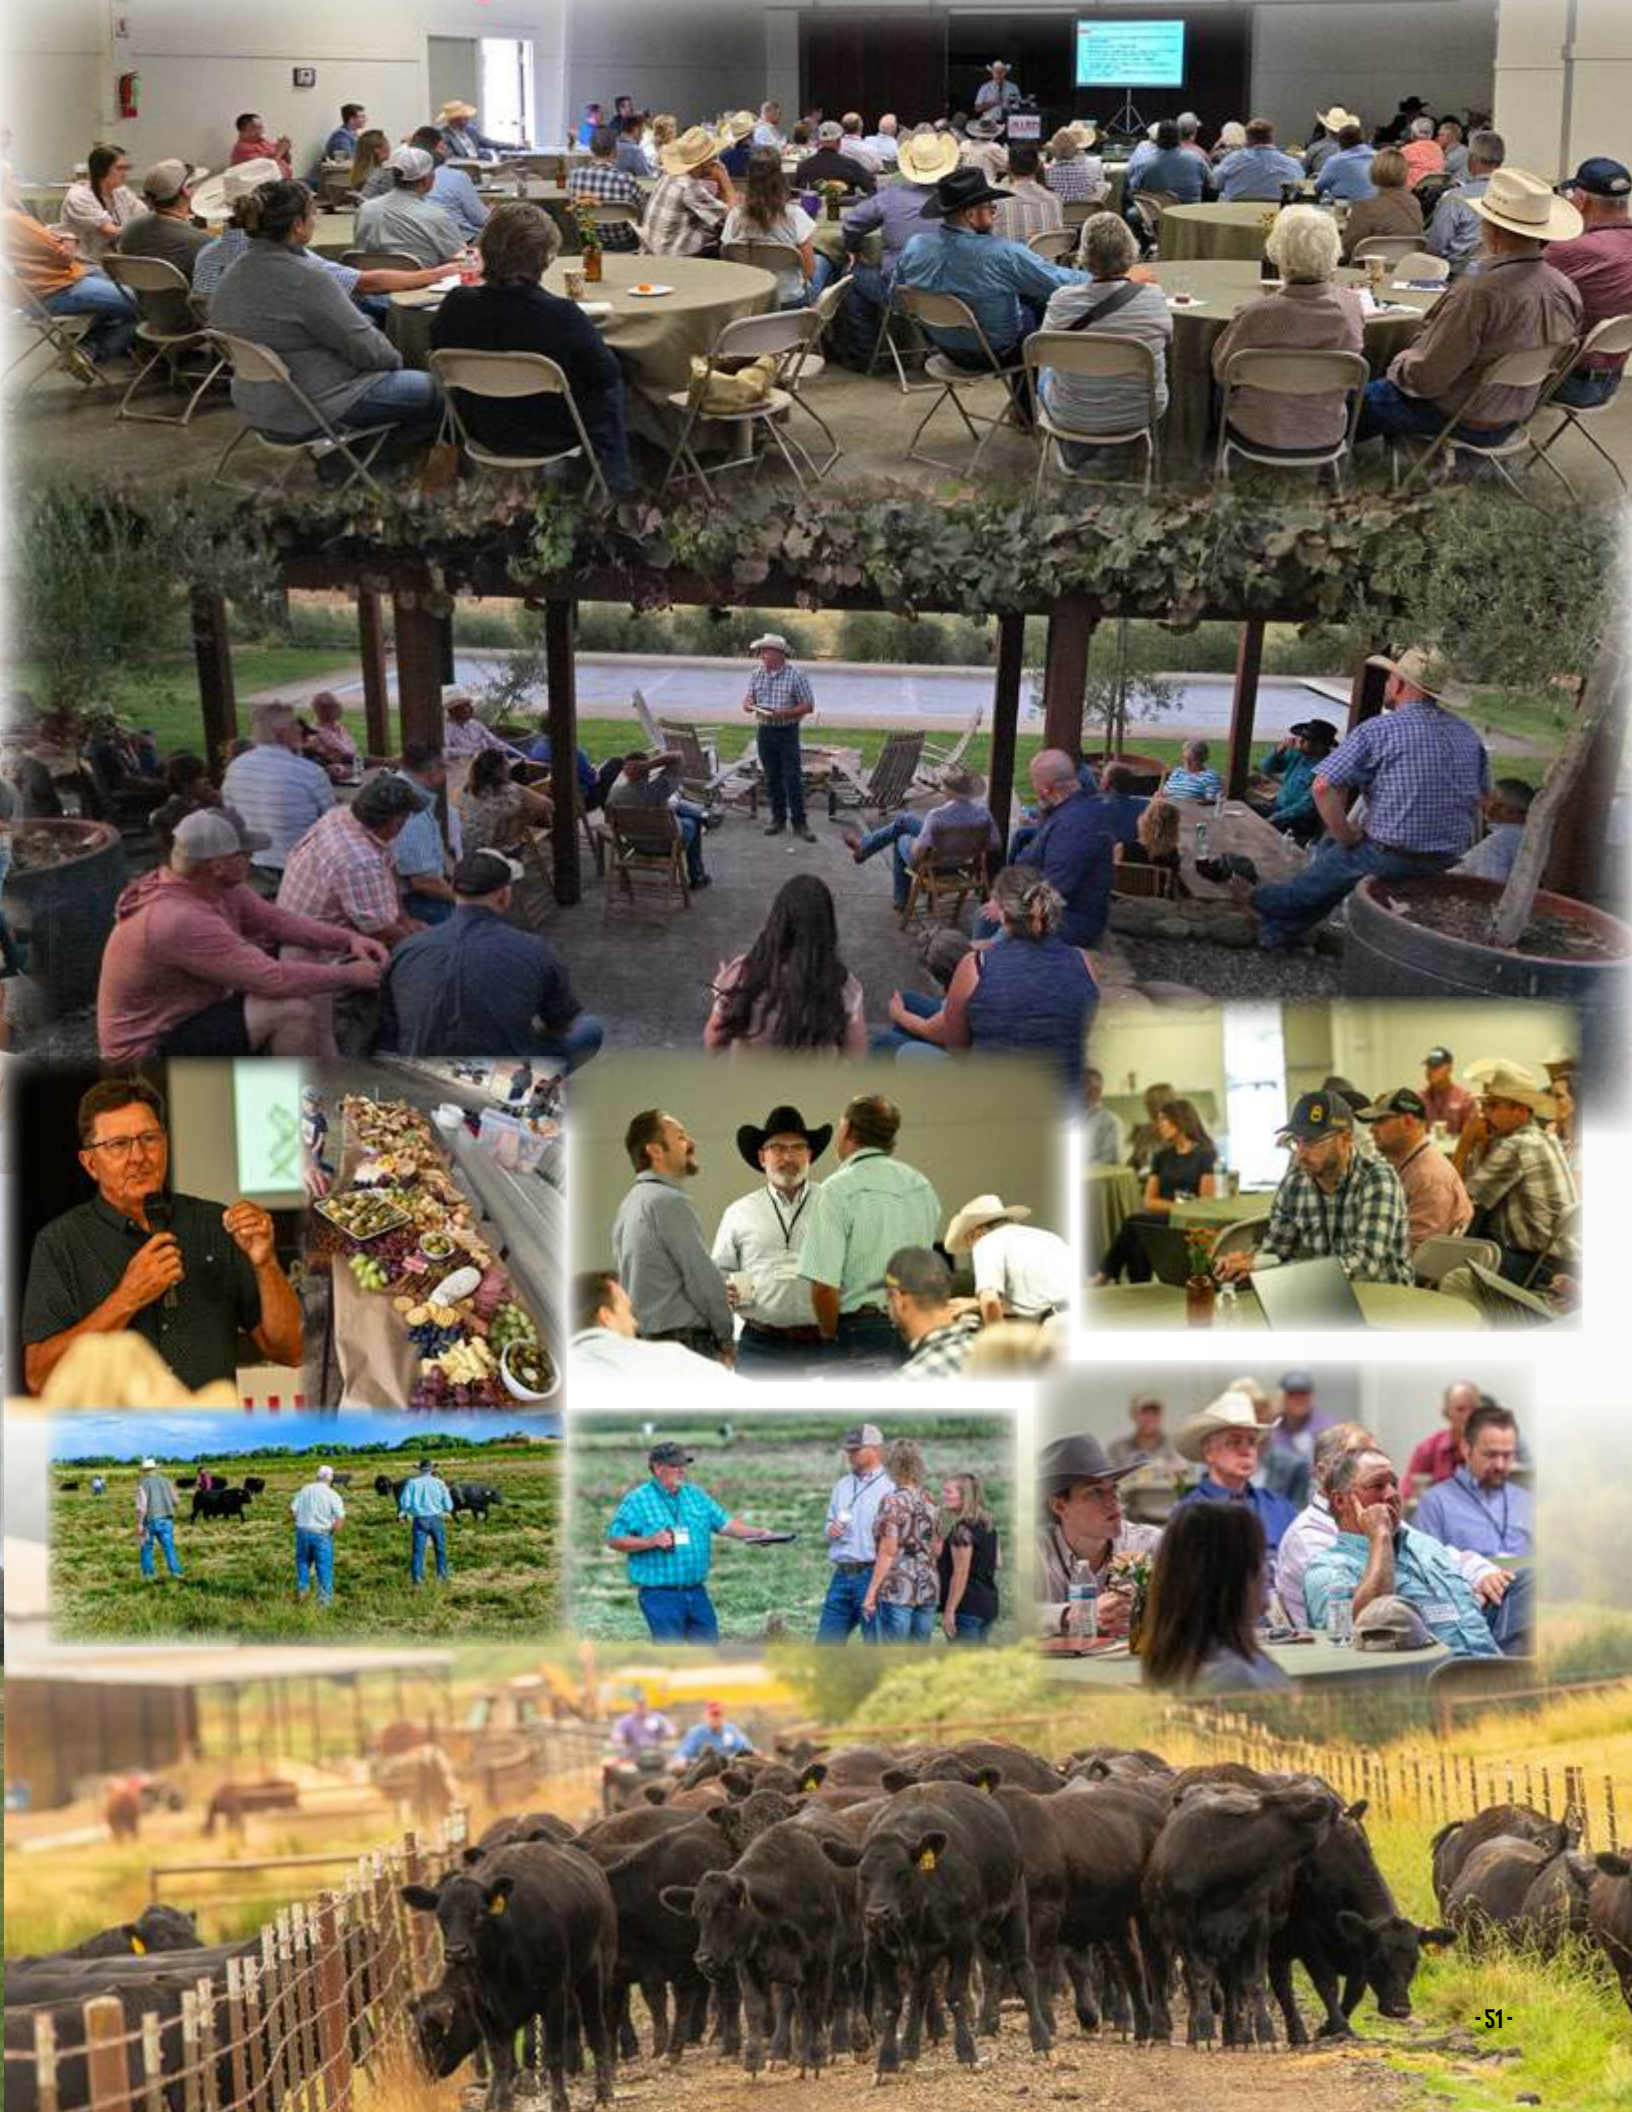
ALLIED *Genetic* RESOURCES
MET AT CIRCLE RANCH IN 2025

In 2025, in conjunction with Beef Solutions Bull Sale sale Circle Ranch hosted the Allied Genetic Resources Annual Meeting. Our friends and breeders from coast to coast traveled to Circle Ranch to see first-hand how cattle are raised in California. Having this many AGR owners travel such far distances and spend time touring our home ranch and evaluating our cattle is definitely a highlight of our years in the Simmental business. Jill and I would like to thank all the Allied staff and owners for helping make the 2025 Beef Solutions Bull Sale a special event.

- Tim and Jill





CUSTOM AI Services

Build a breeding program tailored to your ranch's goals with personalized planning, premium genetics, and hands-on support.

- Customized breeding-project planning designed around your operation's individual needs
- Access to our A.I. breeding barn and professional breeding resources
- Breeding plans tailored to your herd goals, management style, and production environment
- ***Exclusive access to maternally developed sires from Circle Ranch and Bruin Ranch***
- Access to a broad selection of proven sires from leading programs across the country

CCi .LIVE

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you DO NOT need to login to watch the sale but you must have a validated account to bid.

To BID ONLINE go to www.CCI.live in your Chrome, Firefox, Safari or other modern browser:
1) Click on the sale schedule page. 2) Click on the sale of interest.
3) Click on Bid Online- Register and then Get Buyer Number

- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then **"Get Buyer Number."** Some auctions require valid credit card number on file to obtain a buyer number to bid.

- CCI.live will operate with ease on a modern **cellular device, laptop, desktop or tablet**.
- A **current browser** is important and will always make your experience better.

- **For successful bidding you must have good Internet service!** It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

- **Support line open during all sales. TEXT 405-400-9505 -** Please alert the ranch for your hauling preferences.

BUILT TO LAST means more than the cattle we raise—it's about the ***relationships*** we build along the way.

We're grateful for the trust our customers place in our program and remain committed to standing behind our cattle and serving the people who invest in them.

Thank you for your continued patronage, confidence and friendship.

"Going **MATERNAL** doesn't sacrifice GROWTH. Only way to get good growth is with a *strong, solid, feminine cow*. That's your bulls. **Such a solid program, my friend."** —RYAN MAHONEY: OWNER EMIGH LIVESTOCK, RIO VISTA, CA

Donald, Lajie, Trace, Chloe, Wyatt, JW, Carley

The Fischers - Joe & Abbee, Bennett, Paxton, Myles and Marydith

FROM OUR FAMILY *To Yours*

An operation of this scope is impossible without help from our community; thank you to our parents at the AM Ranch for doing an outstanding job raising our Embryo calves. Our children have really risen to the occasion, helping wherever they are able to make this operation work. Our appreciation for them is only outshined by the pride we have in watching them grow in this lifestyle.

Wyatt's loyalty and ability to analyze cattle is the best we have had, and we have reaped the benefit of the support and love of his entire family. Thank you, you have all stepped up when we need you the most, your passion for this program is essential for its success.

Use your smart phone's camera app to scan this QR code for a message from Joe.

Bruin Ranch

FOLLOW OUR SOCIAL MEDIA PAGES.
VIDEOS AVAILABLE AT WWW.BRUINRANCH.COM

Every purchase matters when building genetics that will keep you relevant in the future beef business. We believe that begins with a strong foundation: a versatile mother cow adapted to thrive in her native environment. When the cows on the hillsides are right, you have the flexibility to respond to market preferences.

But when markets shift and the cow herd is not performing in the hills, there is nowhere to pivot without a complete dispersal and restart.

An investment into genetics that make the right type of females is the BEST RISK MANAGEMENT STRATEGY a cow/calf producer could have.

Cow PLAY LIST

We are building a video repository of influential Bruin Ranch cows (including the Dam of Lot 126).

Scan this QR Code to watch.

FELLOW *sons*

BRUIN FELLOW 8224

Sire of Lots 132-140

Above: Bruin Fellow 8224 with his Dam before weaning in 2018

At left: Three-quarter view of Bruin Fellow 8224

Fellow continues to exceed expectations, producing standout sons that anchor sale seasons and females that meet the demands of Western range conditions. Their excellent maternal instincts and ideal foot structure keep us coming back to Fellow year after year—now going into our sixth season using him with confidence. His daughters are broody and functional, with near-perfect udders, ideal teat size, and above-average milk production. These are the kind of females that build herds and leave a positive impact long term. His sons are true front-pasture bulls—long-bodied, extended through the front, with depth, presence, and shape that command attention.

There's no greater gift than parenthood and we are truly enjoying watching our sons grow into fine young men who are pursuing their dreams.

This trio of brothers is out of one of the most massive cows we own. 5341 is a true specimen with the ability to stamp her type and productivity through multiple generations. Her impact can be seen throughout the offering with more to come. If you are retaining replacement females these Fellow sons are proven to make the right kind.

SAV Resource 1441
Maternal Grandsire of Lots 138-140

SAV International 2020
Maternal Grandsire of Lots 136-137

BUILT HERE. BUILT *to* LAST.

The most unique thing we do is breed cattle to excel right here—in this latitude, on this rangeland, in the foothill Oak Savannah of the Sierra Nevada Mountains that we're blessed to graze. It's a semi-desert, wildly rugged environment with significant constraints. Raising cattle that are adapted to it – and tested within this micro-climate – has produced cattle that work, and work well, for customers throughout the arid West and beyond.

Building a cow that is resilient and works with Mother Nature is no small task. Our approach is pretty simple: watch the ones that do it well and make more of them. ***Generation after generation, that's how you build a cow herd that lasts.***

It has always been our goal to challenge cattle here beyond what they'll likely face when they enter the commercial sector. When cattle are born, raised and bred to thrive in this country, they tend to go on and perform in a wide variety of environments. ***They've already been tested.***

Performance matters – absolutely. But the bulls we sell are ultimately the by-product of what we believe we do best: raising resilient, productive and profitable mother cows. We keep our focus on the cow – her cost of production, her ability to stay in the herd and her ability to raise a calf year after year.

For us, building cow herds that last starts with the mother cow.

CATTLE RAISED ALONGSIDE YOU
CATTLE BRED TO EXCEL FOR YOU

DIGNITY *sons*

SITZ DIGNITY 599J

Sire of Lots 141-154

Sitz Barbaramere Nell 53F • Dam of Sitz Dignity 599J

Emerging topics in beef business are heart health, hoof quality and red meat yield. Dignity is the highly proven outlier in our breed, excelling the breed in all these traits by ranking in the top 1% for foot angle, claw set, and holds the number 1 spot for PAP, a trait evaluating heart health. The bull is an exciting outcross for folks who have used our bulls for generations and the progeny type and kind complement the goals of our breeding program exceptionally. The female mates to these bulls are just like his dam, strikingly elegant, deep bodied and appropriately sized.

This bull got a little banged up early and was a little behind and raised on the side of our 0152 donor. 0152 comes from one of the very original two Bruin cows when Lloyd bought the cows and ranch. She has always been one of our most massive Density daughters with perfect feet and exceptional disposition.

Borderline heifer bull, if your heifers are fully developed and larger framed. This bull has a tremendous look and is a full brother to one of the typiest Clarions from last year's sale. His dam is a stunning Capitalist 316 6-year-old.

B//ruin 0070 Princess 4360 • Granddam of Lot 160

INFLUENCE *sons*

BRUIN INFLUENCE 1740

Sire of Lots 161-162

Bruin Influence 1740 as a Yearling

Bruin 4200 Queen Ella 1308 • Dam of Bruin Influence 1740

We kept Influence 1740 from the 2021 calf crop as the heir apparent to his sire, Bruin Envy 7248. Backed by a proven 10-year-old outcross dam, he has proven himself across multiple calf crops and breeds. His sons offer more growth and mature size than his sire, but his greatest value may be his daughters—Envy-like females with added stretch and size that are among the most ideal we've calved. We unfortunately lost Influence to a breeding injury this year, but his impact will continue through extensive use in our AI and ET programs.

LEGITIMATE *sons*

DEEP CREEK LEGITIMATE 203

Sire of Lots 168-172

Deep Creek Rain Lass 013 • Dam of Deep Creek Legitimate

Our friend TJ's slogan is 'Maternal Driven,' and his mentality and commitment to maternal quality has left us searching for a bull to sample from his program. Legitimate's dam records a WR of 3@116 and has A.I. bred to the first service 3 out of 4 years, his Pathfinder® Granddam records a WR of 10@101 and bred A.I. to the first service 9 out of 10 years and his Pathfinder® Great Granddam records a WR of 10@103 and bred A.I. to the first service 9 out of 10 years. The bull himself presents with extreme length, depth of flank, extra chest floor and stands on a great foot. Legitimate progeny are long made cattle that are phenotypically very correct made and have excellent performance.

Revolution has a new outcross pedigree on the top and out of one of the very best cows we have ever offered. This son is long and big topped. Power and growth built into the pedigree with tons of mating flexibility.

SITZ LOGO 8148

Sire of Lots 176-180

Logo 8148 was used again as an outcross calving ease specialist. These calves were born light and vigorous, something we really value calving on these hot fall days. An 11-year-old Pathfinder dam is a bonus with 8148. Her production record is impeccable, posting progeny averages of 98 BW and 107 WW. Longevity and fertility must be bred and selected for; our '8148' daughters in production have a little more mature size and are feminine and beautiful.

A long square hip on this Kirkwood son. A bull with some really balanced figures and outstanding growth ratios.

REAR END *sons*

BRUIN REAR END 2601

Sire of Lots 184-191

Our program is always searching for an outcross; many times, we source these in our own program. '2601' was used to offer a new sire group that fit our objectives of outstanding females in the pasture but supported by data. His sire line is highly proven for bringing exceptional hoof quality, fertility and fleshing ease. His mother lasted into her teens, the 'Miss Charlo 2074' cow, added stature and performance while holding true to the maternal qualities our herd demands.

The only Flex son and on the younger side of our offering. Great outline on this bull and the perfect option if you turn out a little later. His mother is the moderate framed flush sister to 0726, she is heavy milking and perfect uddered.

Bruin Legion 3751 • Sire of Lot 197

The first of the Legions we will offer and a good one to showcase what he will do in our program. Lots 66-72 are a little younger and were fed at home. The Legion x Torque cross is tailor made for exceptional females.

A bull to consider use on some heifers if it fits your program. Long, smooth and clean fronted and out of a good Breaking news daughter of E443. We kept a Torque son of E443 to replace his sire and unfortunately lost him due to injury. E443 is one of the best 5254 daughters to date.

A nice smooth made cow bull with a different twist to his pedigree. Granddam is another old Resume daughter. In our opinion Resume is the most underused Final Answer son.

The standout of the bulls we fed at home. This dude is a bruiser, soft and stout with abundant shape. Different pedigree twist here.

WE'RE BUILDING THEM TO LAST.

SETTING YOU UP FOR WHAT'S NEXT.

Built to Last has long defined the kind of cattle we strive to produce. Functional cattle. Productive cattle. Cattle designed to work in the real world and stay in the herd.

But building cattle to last doesn't mean standing still.

Today, we're investing in technology and information that allow us to manage more efficiently, make more precise genetic decisions and select cattle with the future of the beef industry in mind.

INVESTING IN TECHNOLOGY

Our collar system allows us to collect real-time data on rangeland utilization and cattle distribution, while also providing information that can help us monitor herd health.

More information. Better decisions. Simplified management.

Technology doesn't replace good stockmanship. It gives us another tool to better understand our cattle and how they interact with the environment we expect them to work in.

BREEDING WITH GREATER PRECISION

We're also incorporating precision genetic selection through DNA-enhanced mating systems such as RightMate.

Rather than simply identifying good cattle, these tools help us more precisely determine which genetics complement one another—giving us another way to make intentional mating decisions and continue building a more consistent, functional cow herd.

It's another step toward breeding cattle with purpose.

To read the article, "Reimaging Red Meat Yield," scan the QR code with your smart phone's camera app.

LOOKING BEYOND THE RIBEYE

We're also paying attention to where carcass evaluation and the beef industry are headed.

For years, ribeye area has been used as an indicator of carcass muscling. But emerging research suggests ribeye area alone may tell us surprisingly little about the amount of red meat a carcass actually produces.

> *"Unfortunately, for whatever reason, the relationship between ribeye area and true carcass muscling has grown apart to the point where ribeye area doesn't explain very much at all of the true variation in muscularity."*
> *— Dale Woerner, Ph.D., Texas Tech University*

Woerner puts the relationship in even sharper perspective: ribeye area and actual red meat yield are only about 4% related—not 40%, but 4%.

Researchers at Texas Tech are developing techniques to better predict true red meat yield. As that work progresses, we believe cattle that possess visual muscle and ultimately put more red meat on the rail could have an increasing advantage in the marketplace.

THAT MATTERS TO THE DIRECTION OF OUR BREEDING PROGRAM.

We want cattle that are built to work and built to last—but we also want cattle capable of producing a product that creates value all the way through the beef chain.

Better information. More precise selection. Cattle built with purpose.

BUILT TO LAST.
BUILT FOR WHAT'S NEXT.
